Organizational Experience

Friends Care Community - BINUS @Bekasi

Feb 2025 - Present

Peer Counselor

Friends Care Community (FCC) is a student-based mental health organization committed to promoting emotional well-being within the campus environment.

- Conduct one-on-one peer support sessions using active listening and non-judgmental communication.
- Guide students toward healthier coping strategies and appropriate campus resources.
- Maintain confidentiality and follow ethical guidelines during all interactions.
- Assist in planning workshops and mental-health awareness events.
- Participate in continuous training on emotional first-aid and crisis response.

Skills, Projects & Other Experience

- **Technical Skills:** Figma, HTML, CSS, JavaScript, Low/High-Fidelity Wireframes
- **Soft Skills:** Communication, Active Listening, Teamwork, Problem Solving, Time Management
- **Certifications:** Data Analyst, Graphic Design (Figma)
- **Projects (2025):** Created a website prototype for browsing movies, writing reviews, and joining discussions.
- **Projects (2025):** A personal project aimed at designing and developing a platform where digital artists can display their creations, connect with peers, and collaborate within a supportive creative community.
- **Projects (2025):** Designing and creating a prototype for a digital wardrobe application with real-time clothing recommendations based on the weather.
- **Experiences:** During the freshman orientation period, I took the role of PIC for department mobilization on Parents Day. My responsibility was to coordinate and guide parents to the correct rooms according to their child's major, manage timing to prevent overlaps, and ensure the flow of movement ran smoothly. This experience taught me about time management, coordination, and the importance of clear communication.
- **Experiences:** As part of the Character Building course, my team and I organized a socialization program on anti-corruption values at SMAN 16 Bekasi. We prepared engaging materials, interacted with high school students, and created an open discussion space to raise awareness about integrity and ethical behavior.
